

Plant Hanger Swivel Hook

Technical Specifications
Effective 03/01/2010

Category: Consumer Products

Description: With our unique technology called “**InterCast**” we can die cast movable assemblies right in the tooling thereby eliminating component costs and labor. This decorative and versatile Plant Hanger Swivel Hook has many applications, indoors as well as outdoors, for use in hanging plants and bird feeders. It can easily rotate in a 360 degree swivel and reduce or eliminate unnecessary lifting for maintenance or aesthetic purposes.

Can be used on **Shepherd Hooks**, **Wall Mounts Brackets**, as well as, **Ceiling Hooks**.

These hooks have durable long lasting **Powder Coated Finishes** and can be used year round outdoors.

Maximum Load Weight: 50 lbs.

Part Weight: 47 grams

Can be used on Shepherd Hooks with maximum 1/2” diameter rod.
